

# 100ah power station in China in Botswana

## Overview

---

Will China build a 100-megawatt solar power plant in Botswana?

A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar power plant in Botswana. This project supports the country's revised Integrated Resource Plan, which aims for a 50% renewable energy share by 2036. Scheduled for completion in 2026, the solar plant will.

When will a 100 MW solar plant start in Botswana?

The project is expected to start generation by the end of 2025. Botswana Power has signed a power purchase agreement for the development of a 100 MW solar plant in Jwaneng, a town in the southern part of the country.

When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.

Will China's solar project influence Botswana's energy landscape?

The project is likely to attract significant attention from both domestic and international stakeholders, given its potential to influence Botswana's energy landscape for years to come. A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar power plant in Botswana.
