

# 5MW Solar-Powered Container for Tunnels

## Overview

---

What is UEI-bess-2.5mw / 5MWh battery energy storage system?

Fully integrated 2.5MW / 5MWh containerized battery energy storage system with MV transformer, dual PCS, EMS, and intelligent monitoring. Ideal for industrial, utility, or microgrid applications in the EU. The UEI-BESS-2.5MW / 5MWh is a turnkey containerized energy storage solution engineered for grid-scale and commercial energy management.

What is UEI-bess-2.5mw / 5MWh?

The UEI-BESS-2.5MW / 5MWh is a turnkey containerized energy storage solution engineered for grid-scale and commercial energy management. Housed in a prefabricated 40ft container, the system integrates 2.5MW power conversion, 5MWh of high-voltage LFP batteries, a step-up MV transformer, and full monitoring and safety infrastructure.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

## 5MW Solar-Powered Container for Tunnels
