

5g base station uninterrupted power supply emergency treatment

Overview

This paper proposes a distribution network fault emergency power supply recovery strategy based on 5G base station energy storage. This strategy introduces Theil's entropy and modified Gini coef.

5g base station uninterruptible power supply emergency treatment

Distribution network restoration supply method considers 5G base

This paper proposes a distribution network fault emergency power supply recovery strategy based on 5G base station energy storage. This strategy intro...

Algorithms for uninterrupted power supply to mobile communication base

In this article, an algorithm for automatic control of energy sources was developed to improve the uninterrupted power supply of mobile communication base stations. Based on the proposed ...
