

Australia s new energy storage power station project

Overview

Where will EnergyAustralia's new gas-fired power station be located?

The project will be located adjacent to EnergyAustralia's Jeeralang gas-fired power station at Hazelwood North in the Latrobe Valley, chosen for its land availability and proximity to the existing power grid.

When will the Wooreen energy storage system be completed?

EnergyAustralia achieved financial close for the Wooreen Energy Storage System on 20th February 2025. Construction will now commence on the four-hour, 350 MW Wooreen energy storage system. Once completed in 2027, the system will be capable of powering 230,000 homes over a four-hour period before needing to be recharged.

What is the Wooreen energy storage system?

The utility-scale battery storage facility will add reliability to Victoria's energy supply while supporting the growth of renewable energy across the state. EnergyAustralia achieved financial close for the Wooreen Energy Storage System on 20th February 2025. Construction will now commence on the four-hour, 350 MW Wooreen energy storage system.
