

# Automatic solar pool pump

## Overview

---

Are solar-powered pool pumps suitable for me?

Solar-powered pool pumps can be a great choice for homeowners and commercial pool operators looking to minimize operating costs. They are suitable for solar-powered pool pumps. Solar pumps generate no emissions and produce no noise, making them a perfect match for irrigation systems.

Where can I buy a solar pool pump?

Pool and Spa warehouse keeps a quality range of solar pool pumps in stock including the popular LTP range from Onga. If you can't find the Solar Pump you are looking for, please ring us so that we can source it for you. We have access to all Australian manufacturers, and can get and dispatch any pump in a few days. Need help choosing a pool pump?

.

Can a solar pool pump power a pond?

No, solar pool pumps can perform a variety of tasks (especially useful during a power outage), including powering water features and fountains, circulating water for aqua culture, pond aeration, or even to irrigate a small farm. How many solar panels do I need to power my pool pump?

This depends on the watts your pool pump requires to run.

How much power does a solar pool pump have?

This Solar Swimming Pool Pump has a power of 200W and a maximum flow of 26.5GPM, with a maximum head of 29.5ft. Suitable for Salt/Ground Water Park/Pool Only. Warning: Only 2 units left in stock - order soon.
