

Barbados solar Module Project

Overview

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

What is the renewable Barbados Project?

The European Union and Barbados have taken an important step towards a sustainable energy future with the launch of the Renewable Barbados project which aims to integrate solar power with on-site green hydrogen storage to provide a reliable, stable, and clean electricity supply to Barbados.

Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops, the Government of Barbados is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial growth in this sector.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).
