

# Battery cabinet DC circuit breaker

## Overview

---

What is a DC circuit breaker guide?

This guide is for professional engineers, system designers, and advanced technicians working with modern DC power systems. It provides insights on selecting, installing, and maintaining DC circuit breakers for solar, battery, and EV systems.

Do I need a 40A breaker for battery disconnect?

A 40A DC breaker is also included for battery disconnect. NetSure battery cabinets for small DC power systems are ideal for customer premise installations where batteries are required. Refer to NetSure battery cabinet spec numbers 541434, 545506, 545534 or 554631 for additional specification, engineering or installation information.

What Breaker does a Netsure cabinet use?

Designed to backup the NetSure 2100 Series and NetSure 5100 power system with integrated distribution, as well as NetSure 211 and NetSure 502 systems, these cabinets are equipped with a circuit breaker alarm signal wire and a connectorized cable to attach the cabinet to the power system. A 40A DC breaker is also included for battery disconnect.

How do I connect a battery cabinet to a power system?

Procedure 1. Furnished with the battery cabinet are battery disconnect circuit breaker alarm lead assemblies. Refer to the power system installation manual to use these alarm leads to connect the battery cabinet battery disconnect circuit breaker alarm into the power system alarm circuits.
