

Battery cabinet inspection column specifications and models

Overview

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What is a model BC battery cabinet?

The Model BC Battery Cabinet is UL Listed and finished in textured red or beige to match the various Gamewell-FCI control panels. The cabinet will house up to four (4) model B-31 or two (2) model B-55 batteries. The heavy duty cabinet, constructed of 16 gauge steel, is phosphate treated and primed with zinc chromate prior to painting.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

How many batteries can be stored in a B-31 cabinet?

The cabinet will house up to four (4) model B-31 or two (2) model B-55 batteries. The heavy duty cabinet, constructed of 16 gauge steel, is phosphate treated and primed with zinc chromate prior to painting. Knockouts are located at each end of the cabinet.
