

Bosnia and Herzegovina Ecological Agriculture solar solar container energy storage system

Overview

Can solar power plants improve biodiversity in Bosnia and Herzegovina?

Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity. Solar energy has a great perspective for the implementation of solar power plants that counts for 70.5×10^6 GWh of irradiated energy per year.

Who is building a 125 MW solar plant in Bosnia & Herzegovina?

Bosnia and Herzegovina has started working on a 125 MW solar plant – its largest to date. China's Norinco International will build the facility, with completion expected in one year. The European Commission has published a call for private companies to invest in the Western Balkans.

What is the solar power potential of Bosnia and Herzegovina?

Photovoltaic power potential of Bosnia and Herzegovina from global solar atlas . In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m².

Where is the first solar power plant in Bosnia & Herzegovina?

In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m². Converted solar energy is sent to the Electric Power Industry of B&H. Its annual production counts 150,000 kWh of electricity.
