

GermanSolarZA

Bosnia and Herzegovina PV inverter manufacturer

Overview

Why does Bosnia & Herzegovina have a high energy expenditure?

Bosnia and Herzegovina's energy sector has endured significant loss due to the low energy efficiency standards in the past. This was the case with both residential and commercial buildings, which resulted in the country's high energy expenditure.

What is a microinverter solar system?

Microinverters are high-performance inverters for complex solar systems. Typically, microinverters are “distributed” inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel.

What is a mobile inverter?

The primary application is to convert current but Mobile Inverters have a secondary application. This is the mobility of the inverters to work in remote locations. One inverter can be used with different types of batteries. Inverter can be removed from the battery and installed into different circuits.
