

# **Bulk Procurement of 5MW Mobile Energy Storage Containers in Abkhazia**

## Overview

---

What is a 5MWh battery energy storage system?

As well as reducing energy consumption; the single 5MWh battery energy storage system makes it easier to select the energy storage converter (PCS) and configure the power station.

What is a 5 MWh battery?

5+MWh capacity□optimized for utility scale application, ensuring peak shaving and grid stability. Features 314Ah LFP battery cells, 20ft standard container design, high energy density, and multi-level safety. High corrosion-resistant and compliant with global environmental standards.

How long does a 5MWh power plant last?

It is equipped with a BMS with multi-level balancing function to ensure product service life of  $\geq 15$  years. 5MWh large capacity, 339.6kWh/□ modular high energy density design, 35% higher energy density than the previous generation product, can reduce the project base station footprint by more than 40% and 35% of transportation and hoisting costs.

What is the difference between Zenergy energy storage container and 5MWh?

Zenergy energy storage container is equipped with self-produced 314Ah batteries, and the 5MWh energy storage container is equipped with self-produced 314Ah batteries. Through modular design, it can be flexibly arranged and expanded, and the system is more standardized.

## Bulk Procurement of 5MW Mobile Energy Storage Containers in Abk

---

### [Leading Energy Storage System Integrator](#)

Shanghai Gogreen Energy Co., Ltd. specializes in lithium-ion energy storage integration and offers comprehensive one-stop integrated services, including product sourcing, ...
