Danish Energy Storage Power Company

Overview

Who will supply Copenhagen Energy's 132 MWh Everspring battery energy storage system?

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will be supplied by Huawei Digital Power. Image: Huawei Digital Power. Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power.

Who is Danish renewables?

Danish Renewables is a sustainable energy company founded in 2017 by founder Esben Christensen in Copenhagen, Denmark, with a primary focus on the solar and wind energy sectors.

Who is European energy?

European Energy is a developer of renewable energy projects and provider of green energy storage solutions based in Soborg, Denmark. The company was founded in 2004 by Knud Erik Andersen and Mikael D. Pedersen. The company focuses on developing, financing and investing in wind and solar farms and large-scale green energy storage projects.

How will a Bess project help Denmark's energy grid?

Denmark's energy grid, which has been a frontrunner in incorporating wind power, remains exposed to periods of imbalance and price fluctuation, and BESS installations will offer useful management and optimization. The Everspring portfolio, financed by Ringkjøbing Landbobank, is intended to provide flexible capacity to the Danish grid.
