word for stamp/seal

The word "seal" is used but typically is three dimensional in some way (embossed notary seal, for example) while "stamp" is used for rubber stamping such things.

[round vs. circular , WordReference Forums](#)

Round and Circular do not really have a lot of difference as adjectives, but technically a Circular object is anything that resembles a circle (two-dimensional), while a ...

in this moment or at this moment?

I would normally say "at this moment in time", which is of course just a complicated way of saying "now", but otherwise "at this moment" is generally OK, as in "at this ...

three-dimensional . . WordReference Forums

Dimensional is an adjective and three-dimensional is also an adjective, made by compounding three and dimensional. I don't know what to call the role of three in this compound.
