

Expandable Folding Containers for Water Plants

Overview

What is a collapsible water storage garden barrel?

Our Collapsible Water Storage Garden Barrel are made from high-quality PVC material, ensuring maximum strength and durability. They are resistant to weather conditions, ultraviolet radiation, and any other external factors. Material: High-quality PVC 650 g/m². UV resistance Resistance to mold and mildew formation.

Why should you choose a portable water tank storage?

Presence of a drain tap: Allows you to conveniently and quickly release water from the container as needed, without the need for disassembly or dismantling. We carefully control every stage of production and can confidently guarantee that each Portable Water Tank Storage meets the highest quality standards.

How many litres can a flexible water tank hold?

You can order flexible water tank with volumes of: 160 l, 220 l, 280 l, 300 l, 400 l, 500 l, 1000 l, 1500 l, 2000 l. Included in the set: Portable rain barrel of the corresponding volume, vertical support ribs, drain tap, lid. Please note: You can additionally order a convenient PVC bag for storage and transportation of the barrel.

Which PVC water tank is best for your garden?

Choose the optimal volume from 160 L to 2000 L and enjoy convenience and reliability with every use. Water storage in the garden is an important task for every homeowner. If you're seeking a reliable and efficient solution, then collapsible PVC water tanks from Tehno Tent Plus are exactly what you need!
