

Factory price 480v switchgear in Chicago

Overview

What is medium voltage switchgear?

Medium Voltage (MV) Switchgear is a fundamental component that helps safeguard electrical systems with voltage rankings between 1kV and 38kV. RESA Power is a proud distributor and manufacturer of a variety of switchgear styles including metal-clad, metal-enclosed, pad-mounted, and more.

What is a high voltage switchgear?

Typically used in power substations and industrial plants, these high voltage (HV) switchgear devices are designed to withstand high voltage levels and provide protection against power surges and short circuits to transmit electricity over long distances.

How can Resa power help you with switchgear manufacturing services?

As a business owner, it is important to be prepared for this increase, and RESA Power can help you with our switchgear manufacturing services. As a leading electrical switchgear manufacturer and switchgear distributor, RESA Power has manufacturing facilities strategically located across the United States and Canada.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.
