

Factory price incomer breaker in Burundi

Overview

What is the average income in Burundi?

Listen to this page: The average monthly income in Burundi is 16 US Dollar per capita. In the USA, the figure is 6,972 US Dollar. However, the prices of consumer goods are also around 64.3 percent lower than in the USA. If you compare income and price levels, the result is a more expensive life in Burundi than in the United States.

Are new budget measures causing a 50% price surge in Burundi?

New budget measures raise taxes on essentials, passports, and beverages, fueling fears of a 50% price surge amid deepening inflation. Economists warn that inflation, soaring debt, and collapsing sectors are driving Burundi into deeper economic trouble five years after President Ndayishimiye took office.
