Georgia Smart PV Panel Prices

Overview

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs $2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about $13,173 before incentives, though prices range from $11,197 to $15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

Are solar panels a good investment in Georgia?

Solar power is blooming in the Peach State. Georgians use more energy every month than most Americans, which means installing solar panels in the area is more beneficial from a financial perspective than in most states. However, the high solar panel cost in Georgia can be a deterrent for many homeowners.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you $13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.
