

# High quality 1 2 kva inverter in Austria

## Overview

---

What is a 6kW off-grid solar inverter?

Fast and easy data checking. This 6kW off-grid solar inverter integrates an inverter, MPPT solar charger, and battery charger. 90VDC-500VDC PV voltage input range allows you to configure the system based on your needs. It enables parameter adjustment via LCD screen and can expand 12 units in parallel for higher power demand. .

What is a 10kW off grid solar inverter?

This 10kW off grid solar inverter integrates an inverter, MPPT solar charger, and battery charger. With 90VDC-280VDC PV voltage input range, it allows you to configure the system based on your needs. It enables parameter adjustment and charge priority mode setting via LCD screen and can expand 6 units in parallel for higher power demand.

What are the features of MPPT solar inverter?

Max MPPT Efficiency up to 99%. Compatible with 48V storage batteries. Diesel generator connection supported. Fast and easy data checking. This 6kW off-grid solar inverter integrates an inverter, MPPT solar charger, and battery charger. 90VDC-500VDC PV voltage input range allows you to configure the system based on your needs.

Why do you need a turnkey MV switchgear inverter?

By offering a turnkey solution, we simplify the design and installation process, reducing connection costs. The HEM inverter integrates MV switchgear into a single enclosure, delivering a compact and efficient system. It is designed for easy on-site installation, streamlined connections, and simplified commissioning.

## High quality 1 2 kva inverter in Austria
