

High quality voltage breaker in Norway

Overview

What is a high voltage circuit breaker?

A high voltage circuit breaker is an electrical device designed to protect high voltage power systems by interrupting the flow of electricity during fault conditions, such as short circuits or overloads. It operates by detecting abnormal current levels and quickly opening the circuit to prevent damage to equipment and ensure safety.

What are the different types of high voltage breakers?

We classify our high voltage breakers primarily into: live tanks and disconnecting circuit breakers (DCBs); and dead tanks and dead tank compact (DTC). Both categories include Blue products which use zero F-gases. Let's take a closer look on our circuit breakers!.

Does Hitachi energy offer high-voltage switchgear and breaker solutions?

Hitachi Energy offers a comprehensive range of high-voltage switchgear and breaker solutions up to 1200 kilovolts AC and 1100 kilovolts DC.

How do I choose a circuit breaker?

When choosing a circuit breaker, you want a solution that ensures quality, reliability, and innovation tailored to your needs. Our extensive range of circuit breakers is designed with you in mind, providing the peace of mind that comes from using industry-leading technology.
