

# How many solar base stations does Copenhagen Communication have

## Overview

---

Where can I find information about charging stations in Denmark?

The Ministry of Transport often publishes information and news about charging stations Ladeinfrastruktur og opladelige biler (in Danish). How many wind turbines do we have in Denmark?

The Danish Energy Agency's register (in Danish) contains information on the location, size and production of all Danish wind power plants.

Are solar powered cellular base stations a viable solution?

Cellular base stations powered by renewable energy sources such as solar power have emerged as one of the promising solutions to these issues. This article presents an overview of the state-of-the-art in the design and deployment of solar powered cellular base stations.

Where can I find information about energy in Denmark?

On the Danish Energy Agency's website, you can find statistics and key figures on the subject of energy, e.g. energy prices.

Where can I find current electricity prices in Denmark?

Green Power Denmark shows current electricity prices as well as solar and wind's share of Danish energy production. The figures originate from Energinet's Energy Data Portal. At Drivkraft Danmark, you can find both current prices and the historic price trend from 1970 onwards for e.g. petrol, diesel fuel for motor vehicles and oil.

## How many solar base stations does Copenhagen Communication have?

### [Solar Powered Cellular Base Stations: Current Scenario, ...](#)

Cellular base stations powered by renewable energy sources such as solar power have emerged as one of the promising solutions to these issues.
