

How much does it cost to build a mini base station

Overview

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

How much does it cost to upgrade a 4G tower?

Instead of building entirely new sites, many telcos upgrade existing 4G towers to 5G, which costs between \$20,000 and \$50,000 per site. This is a more cost-effective approach, as it utilizes existing infrastructure. The challenge is ensuring that these upgrades meet the full potential of 5G. Simply adding new radios may not be enough.

How much does satellite backhaul cost?

However, it comes at a steep price, with costs reaching up to \$500 per Mbps, much higher than fiber-based solutions. Satellite backhaul is crucial for extending 5G coverage to underserved areas, including islands, mountainous regions, and disaster-prone zones.

How much does an LTE baseband unit cost?

How about the rack-mounted baseband unit (BBU) for an LTE network?

That's just \$7,461 (for the cheap stuff) or \$54,773 (for the pricy versions). Yeah, sure, you say. That's all well and good.
