

Huawei 5000w solar inverter

Overview

What is Huawei sun2000l 5ktl-l1?

Huawei SUN2000L 5KTL-L1 is a new hybrid inverter with 5000W of power. Compatible with the Huawei Luna battery up to 30kW Huawei SUN2000L 5KTL-L1 is a new hybrid inverter with 5000W of power. It's possible to achieve high yields thanks to the maximum efficiency of 98.3% (European efficiency of 97.3%).

What is a sun5000 series?

Introducing a remarkable collaboration between inverters and optimizers, the SUN5000 Series is designed to deliver peak performance. Thanks to Huawei's innovative optimizing system, each PV module operates independently at its best, minimizing power loss even in shaded areas. Say goodbye to mismatches and hello to unparalleled energy efficiency.

What is a Huawei sun2000 ktl-l1 hybrid inverter?

The Huawei SUN2000 KTL-L1 single-phase hybrid inverter was created to maximize the energy self-consumption of your single-phase system and guarantees high yields and reliable performance. Three-phase string inverter for utility scale applications.

Which inverter is compatible with Huawei luna2000-s1 batteries?

Both inverter variants (8 kW and 12 kW) are compatible with Huawei Luna2000-S0 batteries (with 5 kWh battery modules) and Luna2000-S1 batteries (with 7 kWh battery modules). The charging power reaches 12 kW, varying based on battery capacity, while the discharge power is:
