

Huawei ASEAN Large Mobile Energy Storage Vehicle

Overview

How does Huawei support ASEAN's energy goals?

With a focus on sustainability, Huawei is committed to supporting ASEAN's energy goals by providing cutting-edge technologies that promote efficiency, reliability, and the development of green, smart infrastructure across the region.”.

How will Huawei & Keppel collaborate?

The collaboration will see Huawei and Keppel jointly explore designing and developing innovative PV and BESS solutions tailored for identified projects including the interconnected power grids across the ASEAN region, low-carbon data centres and industrial parks, and digital energy management for hybrid energy systems.

What is the ASEAN Energy Data Centre?

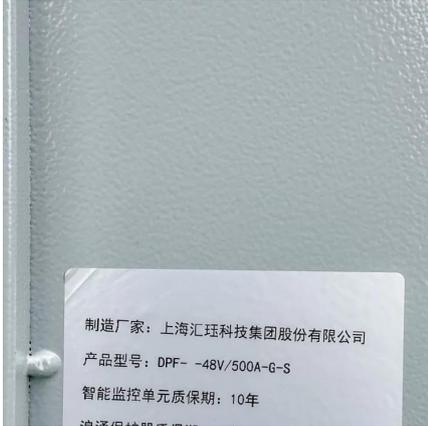

The ASEAN Energy Data Centre, jointly developed by ACE and Huawei, was unveiled, marking a key advancement in regional energy collaboration. This facility embodies the commitment to digital transformation and energy management in ASEAN, serving both as a hub of technological innovation and a catalyst for setting regional policies and standards.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

Huawei ASEAN Large Mobile Energy Storage Vehicle

[Huawei ASEAN Large Mobile Energy Storage Vehicle](#)

The ASEAN Centre for Energy (ACE) and Huawei have further strengthened their strategic partnership during SNEC 2025, the world's leading exhibition for solar and energy storage.
