

# Huawei Central Asia Energy Storage Charging Pile

## Overview

---

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

How many charging stalls does Huawei have?

The station has 18 x 1.44MW charging stalls, 108 x 600kW, and 72 x 720kW liquid-cooled charging stalls. Huawei has employed 1MW photovoltaic carports and two 215kW wind-liquid smart cooling energy storage systems. In April, Huawei launched the first-ever 2400A fully liquid-cooled megawatt-class charging pile.

Is Huawei launching the world's first 100MW charging station?

Huawei is known for its smartphone products, but some serious advancement has been going on in its smart car department, and recently it has launched the world's first 100MW charging station for heavy-duty trucks.

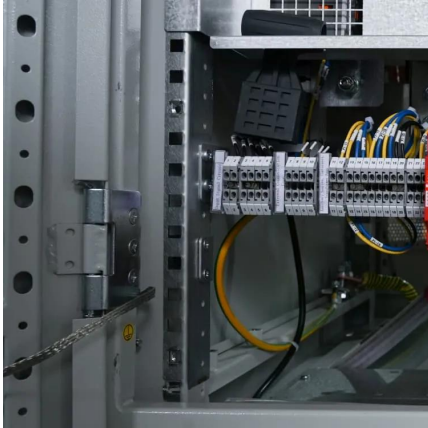

How much does a charging pile cost in China?

Overseas charging piles of the same power are priced several times higher than those in China. For instance, a 120 kilowatts DC charging pile overseas costs around 464,000 yuan (\$64,000), significantly more than the 30,000 to 50,000 yuan price range in China, according to a report of Industrial Securities.
