

Ionic supercapacitor price

Overview

Who owns ionic supercapacitors?

Ionic holds the exclusive worldwide licence to commercialise the key intellectual property (owned by Monash) that underpins our supercapacitors work. Ionic aims to begin generating revenue from our energy storage and photo-voltaic products by 2019. Ionic's planar super-capacitors form the basis of our energy storage products.

Are ionic super-capacitors better than other energy storage products?

Ionic's planar super-capacitors form the basis of our energy storage products. Our research suggests they are smaller, better, faster and have a range of other superior features to existing products: high resolution; small feature size; high throughput; complex geometries; and high conductivity.

Where can I buy supercapacitors & ultracapacitor?

The link could not be generated at this time. Please try again. Supercapacitors & Ultracapacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many supercapacitor and ultracapacitor manufacturers including Cornell Dubilier, Eaton, Elna, KEMET, KYOCERA AVX, Maxwell, Vishay & more.

Are ionic super-capacitors the future of electric vehicles?

Ionic's super-capacitors could inject new capabilities into this market and contribute positively to market growth while also having the potential to capture significant market share. However, beyond better economics, electric-powered vehicles are becoming more mainstream, with more options available to consumers.
