Irish large mobile energy storage vehicle equipment

Overview

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.

Is energy storage a game changer for Ireland & Northern Ireland?

May 2022 Baringa Partners show that energy storage is a game changer for Ireland and Northern Ireland's renewable energy ambitions in terms of its ability to manage renewable oversupply, reduce CO2 emissions, provide low carbon capacity and reduce costs to consumers.
