Is the new energy battery cabinet in Ireland replaced

Overview

Does SSE have a battery storage system in Ireland?

SSE has grown its secured battery energy storage system (BESS) pipeline in Ireland to 300MW with the acquisition of the 120MW/240MWh Thornsberry BESS project near Tullamore, County Offaly. Pictured is the company's 50MW battery storage facility in Wiltshire, England.

Will a battery energy storage system be built in County Offaly?

Co. Offaly, 6th November 2024: SSE has acquired the project development rights for a 120MW/240MWh grid-scale battery energy storage system (BESS) project in County Offaly from UK-based renewable energy company Low Carbon which, if approved for final delivery, could be constructed and operational by the end of the decade.

What's going on with energy storage in Ireland?

An artist's impression of the planned Ballynahone Energy Storage plant in Donegal. The proposed concept will be the first battery storage project of its kind in Europe. Bobby Smith, head of Energy Storage Ireland, highlights a critical need for clear policy and infrastructure development to ensure Ireland meets its renewable energy goals.

Will a battery energy storage system help balancing power across Ireland?

Soon, SEMO, the operator of the wholesale energy market in Ireland, will allow battery energy storage systems (BESS) to play a much larger role in balancing power across the island. Industry players say the move, introduced on November 13, will benefit both battery owners and grid operators.
