Juba Mobile Energy Storage Container 20ft for Wastewater Treatment Plants

Overview

Does biokube offer a containerized wastewater treatment plant?

In the picture, you can see all the necessary mechanical parts for independent operation. Delivered in 2014. BioCube offers a variety of containerized wastewater treatment plants in standard shipping containers for easy relocation.

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How do mobile sewage treatment plant containers work?

All our mobile sewage treatment plant containers operate in both underload and overload conditions. Fully automatic operation and simple maintenance by unskilled staff. The modular system allows for rapid expansion and addition of further treatment processes. The systems are fully transportable and can easily be relocated and reinstalled at new sites.

What is a mobile water treatment & purification plant?

Mobile water treatment and purification plants are designed to cover emergency, temporary solutions such as construction sites or long-term water treatment requirements. These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

Juba Mobile Energy Storage Container 20ft for Wastewater Treatment
