

Large-scale solar container battery in Sydney Australia

Overview

Are Australia's large-scale battery energy storage projects attracting federal support?

The volume of large-scale battery energy storage projects under construction in Australia passed that of solar and wind projects combined in 2023 and the trend has intensified this year, with batteries attracting federal support. As coal-fired power plants are shuttered, developers and suppliers are enjoying a battery bonanza.

What is the Big Battery Storage Map of Australia?

The Big Battery Storage Map of Australia is a map that includes all big battery projects of 10MW or 10MWh and above. It categorizes projects as 'Operating', 'Construction', 'Announced', or 'Under Development'.

Which country has the largest battery energy storage system?

* This question is required. According to the report, the largest battery energy storage system (BESS) project to reach financial commitment in Q1 was in Wooreen, Victoria, boasting a storage capacity of 350MW and an energy output of 1.4GWh. South Australia led in terms of capacity, with projects totalling 640MW/1.8GWh.

How much is battery storage worth in Australia?

Credit: Phonlamai Photo / Shutterstock. The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial commitment stage, according to the latest Clean Energy Australia Report 2025.
