Luxembourg City Electric Tower 5G Base Station Construction

Overview

What is a 5G strategy for Luxembourg?

The resulting national "5G strategy for Luxembourg" defines the general framework for the deployment of the 5G network. The strategy helped setting a frame for the allocation of spectrum and the overall facilitation of 5G deployment on at national level.

When was the first 5G call for projects launched?

The first 5G call for projects was launched in June 2019 and aimed to trigger innovative projects in the field of new generation electronic communications.

What is a 5G Brain Center?

Often referred to as the brain center, this includes: Baseband Unit (BBU): Handles baseband signal processing. Remote Radio Unit (RRU): Converts signals to radio frequencies for transmission. Active Antenna Unit (AAU): Integrates RRU and antenna for 5G-era efficiency. 2. Power Supply System.

What is a 5G strategy?

The strategy helped setting a frame for the allocation of spectrum and the overall facilitation of 5G deployment on at national level. The complete strategy and the related background documentation are available on the "Innovative Initiatives" platform.
