

Macedonia Energy Storage Wind Power Project

Overview

What is wind power in North Macedonia?

tility-scale and rooftop PV. WIND POWER Wind energy in North Macedonia is at an earlier stage but is poised for expansion. The country's first wind farm, the 36.8 MW Bogdanci Park (1 turbines), was built by ESM in 2014¹⁵. For nearly a decade, Bogdanci remained the sole wind project—wind cap.

Is North Macedonia a 'flagship investment' in the Western Balkans?

Both projects have been identified as Flagship investments under the Economic and Investment Plan for the Western Balkans. North Macedonia's efforts to decarbonise the energy sector received another boost with the signing of a grant agreement on 18 March 2024 to increase the capacity of Bogdanci Wind Park.

Is North Macedonia a sustainable country?

“The huge sustainable energy potential of North Macedonia, especially through wind and solar energy, is an enormous opportunity for the country, which is important in the advancement of the Green Agenda”, emphasized Holger Schröder from the European Commission's Directorate for Neighbourhood Policy (DG NEAR).

How much solar power does North Macedonia have?

MW facility completed by Mey Energy. North Macedonia enjoys high solar irradiation (1,200 kWh/kWp/year) and abundant degraded land, giving it an estimated technical potential above 5–10 GW for PV^{11 12}. The government's initial goal to add 400 MW of solar by 2024 has effectively been met, and new targets envision 1 GW+
