

# Madrid Solar Island Power System

## Overview

---

What is Edisun power Europe doing in Madrid?

special newsletter PV for farmers (monthly) Edisun Power Europe is building three large solar parks near Madrid, boosting solar energy capacity by nearly one gigawatt to meet high local demand.

Does Spain need solar power?

The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge. Swiss project developer Edisun Power Europe is now developing three large solar parks near the capital, with almost one gigawatt of solar power.

What is the demand for solar power in Spain?

The three projects have grid access, connection rights granted, an environmental licence (DIA) and an interim administrative permit (AAP). The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge.

How many solar power plants does Edisun have?

It currently has 36 solar power plants in Switzerland, Germany, Spain, France, Italy and Portugal, plus a secure pipeline with a capacity of approximately 1.2GWp. Photo: Edisun Power
