Mexico Monterrey solar solar container outdoor power Price

Overview

How much solar power does Monterrey have?

Seasonal solar PV output for Latitude: 25.6554, Longitude: -100.3258 (Monterrey, Mexico), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 6.98kWh/day in Summer.

How much do solar panels cost in Mexico?

Solar panels in Mexico cost an average of \$3.07 per watt, and we expect this to decrease further as the development of solar projects becomes more commonplace. The Government of Mexico (GoM) has also helped to support the development of solar generation across the country, taking advantage of Mexico's average of 300 days of sunshine a year.

Is Monterrey a good location for solar power generation?

Monterrey, Nuevo León, Mexico (latitude: 25.6554, longitude: -100.3258) is a highly suitable location for solar power generation due to the substantial amount of energy that can be produced from installed solar panels throughout the year.

Can you get low-cost solar power in Mexico?

Contact us to learn more about accessing low-cost solar power in Mexico. Savings from on-site solar can range between 20% and 40% with no upfront costs. Contact us today. The market is favorable for solar energy projects thanks to low equipment costs, strong renewable energy policies, and several national solar power programs.
