Moldova office building solar curtain wall brand

Overview

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

Why should you choose Onyx Solar photovoltaic curtain wall?

Thanks to Onyx Solar Photovoltaic Curtain Wall, buildings become a real power plant, keeping their design appeal, aesthetics, efficiency and functionality. They are more cost-effective than systems constructed with conventional glass. Reduce your monthly electricity costs by producing your own energy. REACH OUT NOW TO SEE HOW!.

What is a solar curtain?

The Solar Curtain utilizes flexible Organic Photovoltaic (OPV) panels as dynamic shading elements, functioning either externally or internally on building facades. While enhancing the visual appeal of glazed surfaces, these curtains simultaneously generate clean energy and regulate indoor environments.

What is a PV curtain wall?

The PV curtain wall is the most typical one in the integrated application of PV building. It combines PV power generation technology with curtain wall technology, which uses special resin materials to insert solar cells between glass materials and convert solar energy into electricity through the panels for use by enterprises.
