

Munich solar solar container battery Exhibition

Overview

What is the interbattery Europe showcase?

At this year's ees Europe, the InterBattery Europe Showcase will offer a view of the South Korean battery industry and a networking forum for the European automotive industry. Collaborative partner COEX expects around 200 companies at the InterBattery Europe joint booth in hall C3.

Who are the leading battery manufacturers in Europe?

The leading international battery manufacturers – such as ees exhibitors CATL, EVE Energy Storage and Hithium – outline their strategies for Europe and the global market. The session will be chaired by Florian Mayr, partner at Apricum – The Cleantech Advisory and ees Europe Conference chairman.

Will new battery research projects be launched in 2025?

There was to be no financial support for new battery research projects in 2025 either, but the competent German Federal Ministry of Education and Research provided 25 million euros from other sources. This meant that new projects could be launched – an urgent decision for the future of German battery research, according to many observers.

What is the global demand for battery storage systems?

According to a joint analysis by Roland Berger and RWTH Aachen University, the global demand for battery storage systems will grow by a factor of three, reaching up to 4.6 terawatt-hours by 2030. The authors of the study highlight the dominant role of East Asian, specifically Chinese, manufacturers.
