

N Djamena solar roof tilted solar panels

Overview

Where is N'Djamena solar project located?

The project site is located 30 km north of N'Djamena on a 100ha piece of land awarded by presidential decree. The project consists of the design, financing, construction, operation, and transfer of a 28MWe solar PV plant and interconnection infrastructure.

What does Djermaya solar mean for Chad?

The proposed project concerns a EUR 18 million loan as well as a Partial Risk Guarantee (GPR), for the establishment of the Djermaya solar power plant in Chad. Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad.

What is Djermaya solar?

Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad. It is the first renewable power generation project in the country, as well as the first Public Private Partnership that the country is implementing.

Where is N'Djamena's first renewable power generation project located?

It is the first renewable power generation project in the country, as well as the first Public Private Partnership that the country is implementing. The project site is located 30 km north of N'Djamena on a 100ha piece of land awarded by presidential decree.

N Djamena solar roof tilted solar panels

[What is the optimal orientation and tilt angle ...](#)

Does it make sense to adapt the tilt of a roof to optimize production? In the case of PV-T, when a roof has a fixed slope, it is not necessary to change the angle of the roof to get an optimal production. In ...
