New energy storage quotation in Gothenburg Sweden

Overview

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

Is Elektra the largest battery storage project in Sweden?

However, neither of these projects had been completed and energised when RES launched the Elektra energy storage project in late April, a 20 MW/20 MWh project billed as Sweden's largest battery storage project at the time.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

Where will Sweden's new energy storage facility be located?

The storage facility will be at a site in Forsmark, which is about 130 kilometers (81 miles) north of Stockholm. "We are doing this to take responsibility, both for the environment and people, but also for Sweden's long-term electricity production and Swedish jobs," Environment Minister Annika Strandhall said at a press conference.
