What Is a Battery Management System?

What is a battery monitoring system (BMS)?

BMS performs several functions, including monitoring the battery's state of charge, state of health, and state of safety. The design and operation of BMS are critical in ensuring the safety and efficiency of EV batteries.

Who is BMS powersafe®?

Specialising in the intelligence of embedded systems, BMS PowerSafe® designs and manufactures intelligent battery management systems, integrating new-generation software and electronic boards enabling us to be one of the leaders in the markets:

Other Information on Battery Management Systems
Battery management systems are integral in monitoring automotive batteries and lithium-ion battery modules in smartphones. Lithium-ion batteries, known for their efficiency, require careful management to prevent accidents and optimize performance. Their application extends to automotive batteries, particularly with the growing demand for EVs. See more on us.metoree Marquardt Gruppe
