# Polish bipv solar roof integrated panel equipment

## Overview

---

What is a BIPV module?

is a new type of building material which is can be use not only as a part of construction but first of all as a source of electricity. ML System manufactured BIPV modules fully customized in design, color, size and technology.

What is BIPV technology?

Great response for the demand of energy- saving new construction and also for renovating both public and private buildings – essential point of European Green Deal – is BIPV technology.

What is ML system BIPV?

ML System manufactured BIPV modules fully customized in design, color, size and technology. The essential component of BIPV is photovoltaic glass - laminated or insulated glass units with photovoltaic cells embedded.

What are the benefits of a Longi roof BIPV system?

Higher Module Efficiency Less Power Degradation Higher Installed Capacity  
Power Generation Revenue Carbon Emission Trading Benefits Owner Social  
Influence Benefits Excellent metal roofing enclosure system integrated with PV  
power generation What is the difference between the LONGi Roof BIPV system  
and a traditional distributed rooftop PV system?

## Polish bipv solar roof integrated panel equipment

### Lider BIPV Fotowoltaiki zintegrowanej z budownictwem

Oferujemy fotowoltaikę klasyczną PV i zintegrowaną z budownictwem BIPV. Specjalizujemy się także w technologicznie zaawansowanej obróbce szkła
