

Port Moresby Base Station Communication System

Overview

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

Was Port Moresby a military base?

Naval Base Port Moresby was a United States Navy base built during World War II at the city of Port Moresby on Papua New Guinea. The US Navy built a communication center and advance base headquarters for the US Seventh Fleet to support the Pacific War in 1943. The base was part of the New Guinea campaign.

Where is Port-Moresby located?

Port-moresby is located in Papua New Guinea, not in Australia or Queensland. The shortest distance (air line) between Sydney and Port-moresby is 1,706.80 mi (2,746.83 km). The shortest route between Sydney and Port-moresby is according to the route planner.

How will the Coral Sea cable system help Papua New Guinea and Solomon Islands?

The Coral Sea Cable System will play an ongoing role in supporting the economic and social development of both countries. Faster, more affordable and reliable communications infrastructure is now available to Papua New Guinea and Solomon Islands, with construction of the CS2 and SIDN projects now complete.
