

Portable solar panel lithium power source

Overview

What types of batteries are used in portable power stations?

The two main classes of batteries you'll see right now in portable power stations are LiFePO4 and NCM. LiFePO4 batteries utilize lithium, iron, and phosphate, and are considered safer and longer lasting than other batteries.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. [↓ Jump to the Rest of the Field](#) [↓ What to Know Before Purchasing a Portable Power Station](#).

Are LiFePO4 power stations portable?

With the new LiFePo4 battery chemistry, I personally found that units in the 1000 Wh range were fairly portable, while those that were closer to 1500 Wh were more of a chore to pick up and move around. Power stations that stood out as especially difficult or easy to move around have been noted in the individual reviews.
