

Price of 40-foot photovoltaic containers in Southeast Asia

Overview

Will PV demand grow in Southeast Asia in 2024?

InfoLink projects that PV demand in Southeast Asia will reach 4.5-7.4 GW in 2024, with long-term demand likely growing to 9.7-12.9 GW, suggesting that the Southeast Asian PV market will maintain steady growth in the coming years, becoming a key player in the global energy transition.

Is PV module manufacturing in Southeast Asia under pressure?

Thanks to new data, this edition includes entries such as ICA Solar and United Renewable Energy (URE), reflecting the evolving landscape of PV manufacturing in the region. Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure.

How many solar panels are installed in Thailand in 2022?

According to the International Renewable Energy Agency, the total solar PV installed capacity accounted for 3060 MW in Thailand in 2022. The solar PV capacity is expected to grow in the forecast period as demand for renewable power and greener energy increases.

Will solar PV capacity grow in 2022?

The solar PV capacity is expected to grow in the forecast period as demand for renewable power and greener energy increases. In July 2022, the Ministry of Industry and Trade (MOIT) of Vietnam submitted a report to the Prime Minister on the process for transitional wind and solar power projects.
