

# Riyadh grid side energy storage cabinet model query

## Overview

---

How much is Saudi Arabia's energy storage system project worth?

The engineering, procurement and construction (EPC) contracts for the three energy storage system projects recently awarded in Saudi Arabia are estimated to be worth over \$800m.

What is BYD energy storage?

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of the decade. A milestone in global energy storage.

How many GWh of electricity will be installed in Saudi Arabia?

According to Sungrow, each project will have a capacity of 2.6GWh, totalling 7.8GWh. The three storage projects are located in Najran, Madaya and Khamis Mushait in Saudi Arabia. Sungrow added that deliveries are expected to commence this year, and the grid connection is anticipated by 2025.

What is Saudi energy mix?

Saudi's optimal mix involves renewables accounting for 50% of electricity generation by the end of the decade. The new energy storage systems will be installed across five locations in the Kingdom and fully integrated into the national power transmission network.
