

San Jose s largest outdoor power source

Overview

Should San José buy more power?

In San José, city energy officials say they are reluctant to procure additional power until they know which projects will actually be built. “We do not want to buy more power than we need,” said panelist Lori Mitchell, director of San José Clean Energy, the city’s publicly-owned electricity provider. “That’s job No. 1.”

Who uses solar power in San Jose?

The active project supplies power to the city of San Jose, Southern California Edison, Pacific Gas & Electric, the Clean Power Alliance, and Starbucks corporation, among others. The project’s first phase added 346 MWac of solar modules and 1.5 GWh of battery storage.
