

San Salvador Base Station Communication Products

Overview

Why does El Salvador prefer US technology products?

El Salvador's private and public sector prefers U.S. information technology products, which creates opportunities for water metering, smart traffic solutions, smart lighting systems, custom technology solutions, and city monitoring systems.

Does El Salvador have a telecommunication sector?

El Salvador's telecommunication sector has operated under a privatized legal and institutional framework since 1997, encouraging competition in most areas and allowing foreign investment.

What are the import duties in El Salvador?

Import duties for information and communication technology and equipment are zero percent, subject to a 13% value-added tax. Companies should either register an office or work with a local agent to do business in El Salvador. Telecommunications systems and products.

What are El Salvador's plans?

El Salvador has ambitious plans to modernize customs, ports, airports, water, and sewage systems; and improve and expand mass mobility, lighting, surveillance of roads, and implement electronic voting.
