

# Seoul Lithium Energy Storage Power Direct Sales Company

## Overview

---

Is South Korea a leader in energy storage?

South Korea, a global powerhouse in the manufacturing of advanced electronics and automotive products, has in recent years also taken a prominent role in the energy storage industry. This East Asian country is home to some of the world's leading energy.

Who makes a lithium battery in Korea?

LG Chem is the largest producer of lithium battery in Korea and one of the leading battery manufacturers in the world. It's leading the ESS (energy storage system) market with a wide range of power grids, commercial and residential uses, as well as UPS lithium battery.

Is South Korea's energy storage industry sustainable?

Environmental concerns regarding battery production and disposal are increasingly under scrutiny, prompting a shift towards sustainable practices in the industry. The global market relevance of South Korea's energy storage sector is significant, as it is one of the leading countries in battery technology.

Are South Korean companies investing in energy storage systems?

Less than a decade ago, South Korean companies held over half of the global energy storage system (ESS) market with the rushed promise of helping secure a more sustainable energy future. However, a string of ESS-related fires and a lack of infrastructure had dampened investments in this market.
