

# Sodium flow solar container battery in Manchester UK

## Overview

---

Why should you invest in a new sodium battery plant?

The new sodium battery plant will serve as a hub for exporting batteries to customers such as Tata Power in India and strategic partners in the Middle East. These regions, rich in solar potential, require robust storage solutions to convert intermittent sunlight into dependable, round-the-clock power.

Are sodium ion batteries sustainable?

Sodium ion batteries are not only efficient but also more environmentally friendly, utilizing abundant and sustainable materials. Utilizing existing form factor and communication protocols, our system seamlessly integrates with your existing home battery controllers and hybrid solar inverters.

Why should you choose sodium-ion batteries?

Why Choose Sodium-Ion Batteries?

- Ultra Low Temperature operations - Charge at -20 degrees discharge to -30!
