

Solar System Application in San Diego

Overview

Do I need a permit to install solar panels in San Diego?

If all documentation and fees are correct, the City of San Diego will approve a permit for your PV installation and installation of the system can begin. Upon completion of your installation, the City of San Diego must inspect your solar installation.

How do I get solar energy in San Diego?

This page outlines solar PV incentives, financing mechanisms, permitting process, and interconnection information for the City of San Diego and the utility that serves its territory, San Diego Gas and Electric. Qualified contractors are your key to getting the most productive solar energy system for your home or business.

Does San Diego have to inspect a solar installation?

Upon completion of your installation, the City of San Diego must inspect your solar installation. For additional helpful information on inspections, please refer to the Residential Photovoltaic Systems Inspection Guidelines.

Do I need a permit to install a solar system?

A Permit is required for the installation of all PV systems. A solar permit, or combination permit for installations on single family dwellings or duplex projects, may be required if structural modifications to existing construction are proposed to support the PV system.
