

# Transformer breaker in China in Italy

## Overview

---

Who makes transformers?

For over a hundred years, we have been the leading Italian company in the design and production of industrial and power electrical transformers. We manufacture, refurbish and maintain transformers for industrial customers in energy-intensive industries and for key energy players worldwide.

What are elettromeccanica Tironi power transformers?

All Power Transformers by Elettromeccanica Tironi comply with international standards (IEC, IEEE/ANSI. ) and are built according to the technical specifications of the end customer. The production range currently reaches units of 400MVA power and 420kV voltage, immersed in mineral oil (also 100% recycled) or in synthetic or natural ester.

Who is Trafo Elettro?

Trafo Elettro is a manufacturer that offers a diverse array of transformer products, such as cast resin, oil immersed, and power transformers, among others. The company's commitment to product quality and customer service underscores its expertise in the transformer industry.

Who makes specialtrasfo Transformers?

Max. The company, Specialtrasfo, has a long history in the engineering and manufacturing of custom-designed power transformers, having evolved from a Milan-based transformer company founded in 1946. With extensive experience in both dry-type and liquid-filled transformers, Specialtrasfo has established itself as a premium supplier in the industry.
