

Wellington Battery PACK

Overview

Where is the Wellington Battery energy storage system located?

The Wellington BESS will be located within the CentralWest Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia has secured Shell Energy Australia's remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South Wales.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

What's going on with ampyr's Wellington Battery Project?

Ampyr said it has also signed a 10-year virtual battery offtake agreement with Adelaide-headquartered renewable energy gen-tailer Zen Energy for 150 MW of the stage one project's capacity. The company said more offtake arrangements are expected to be added to the initial phase of the Wellington battery, and for the second stage of the project.

Where is the Wellington Stage 1 battery located?

On Tuesday, the company announced it had reached financial close on the 300 MW, 600 MWh Wellington stage 1 battery, which is located next to the existing Wellington and Wellington North solar farms in western NSW.
